

# Sacred Grandmother Drum in Australia

*From the Oldest Mountains...the Flinders Ranges...the great sleeper dreamers who hold the medicine song of Mother Earth's first pulse....comes a pure sound of the Cosmic Tone and we sing forth these medicine songs of the new earth, birthing us through the Golden Doorway of 2012... these are the heartsongs to herald a thousand years of peace, resonating our deepest authentic nature and our communion and service to the Council of All Beings.*
